## **STATS – 1990 – 2011 – DMR FIGURES**

At a recent Mancom meeting the office was requested to obtain the DMR's stats on Aggregate and Sand.

We have now obtained the official figure and are aware that the figure is lower than what is produced.

Illegal Mining/Road Building and other big Construction projects are not recorded by the DMR.

What this table does is that it shows a trend. Aspasa has for many years now being trying to get the Regulator to collect better figures, with no success. We have included Limestone and Lime.
